Business Issues:

- Excel based consolidation, budgeting, and reporting models feeding a corporate consolidation solution
- Labor intensive data collection and report development process
- Growth through acquisition and multiple systems and chart of accounts
- Increased internal and regulatory reporting requirements as public company

Longview Software and Service Solutions:

- Planning, Budgeting, and Forecasting
- Consolidation
- Longview Integration Suite (LVIS)
- Optix
- Design, development, and deployment advisory services

Solution / Benefits

- Implemented global Corporate consolidation application with sub-consolidation applications for 5 subsidiaries including RB&W, Supply Technologies, General Aluminum, Ajax Tacco, and Fluid Routing Systems
- Implemented standardized corporate planning solution and integrated Planning applications within subsidiaries
- Leveraged LVIS to automate data integration between multiple source general ledgers and subsidiary and corporate Longview Consolidation solutions
- Improved speed of financial planning and close processes
